303-5 Prohibited Uses

- 303-5.1 Structures or uses not specifically authorized by Section 303.
- 303-5.2 The use of a manufactured dwelling or recreational vehicle as a residence except where specifically authorized under Section 303-2.9, 303-2.10, 303-3.6, 303-3.7, 303-3.11, or 303-3.17.
- 303-5.3 Any parking or storage of tractor trailers, semi-trucks, or heavy equipment, not including farm equipment or logging trucks used in conjunction with a farm or forest use.
- 303-5.4 The outdoor parking or storage of any five (5) or more operable vehicles on a single lot or parcel for more than forty-eight (48) hours, except as approved in conjunction with a development.
- 303-5.5 Keeping of fowl for sale, keeping of swine (except for up to three (3) purebred potbelly pigs as household pets and not for breeding purposes) or operating a feed lot.
- 303-5.6 The location of service facilities such as high schools, hospitals, nursing homes, public assembly and high density residential development in airport approach zones. Location of these facilities shall be avoided within any existing (June, 1983) airport year 2000 LDN fifty-five (55) contour.
- 303-5.7 Mounting a communication tower or antenna, that is not a permitted accessory use, on a detached dwelling.
- 303-5.8 Mounting an antenna, that is not a permitted accessory use, on a communication tower that is accessory to a detached dwelling.
- 303-5.9 Auto wrecking yards.

303-6 Density

- 303-6.1 The permitted residential density shall be no more than six (6) units per acre and no less than five (5) units per acre, except as permitted by Section 300-2 or by 303-6.2 below.
- 303-6.2 The Review Authority may exclude slopes between fifteen (15) and twenty (20) percent from the acreage used to calculate the minimum density when the following standards are met:

- A. The applicant submits an engineering geology report that demonstrates the subject area should not be built to the minimum density due to landslide or soil liquefaction hazards, or other geologic hazards. The engineering geology report shall be prepared by a registered civil engineer experienced in geotechnical engineering and/or a certified engineering geologist or a registered professional geologist. The report shall be accepted as complete by the Building Engineer prior to submission of an application. The Building Engineer may require an outside peer review to assist in the review of the engineering geology report. The applicant shall be responsible for the costs of such a review; and
 - B. The Review Authority finds that building to the minimum density would result in, or be in jeopardy of, landslide or soil liquefaction hazards, or other geologic hazards.
- 303-6.3 Development to the required minimum density may be phased over time through future land divisions when the following standards are met:
- A. A future development plan shall be submitted which demonstrates how the entire site can be ultimately developed consistent with the minimum density and other applicable standards of the Code. The plan shall include:
 - (1) Complete parcelization of the subject property, including the size and configuration of all lots or parcels;
 - (2) Vehicular and pedestrian access and circulation necessary to serve the ultimate development on the subject property and adjacent properties;
 - (3) Public facilities and services necessary to serve the ultimate development, including location and required easements and tracts. Public facilities and services shall include, but are not limited to, water, sewer, fire protection, and drainage, including storm water and water quality facilities and any necessary buffers; and
 - (4) The location of unbuildable categories of land listed in Section 300-3.1;
 - B. The size, configuration and location of proposed lots or parcels to be created through an application, and the location of new dwellings and structures on the proposed lots or parcels, shall not preclude:
 - (1) Future development of the subject property to the minimum density as shown on the future development plan; and
 - (2) Future development or redevelopment of adjacent properties to the permitted density;
 - C. No future street, easement or public facility shall be located on the subject property in a manner that would preclude future development to the minimum density as shown on the future development plan or preclude development of adjacent properties to the permitted density; and

- D. For subdivisions, each phase of a subdivision shall comply with the minimum density requirement.

303-7 Dimensional Requirements

303-7.1 Lot Area:

- A. For single family detached dwellings:

- (1) The average lot area within a proposed development (including property line adjustments) shall be no less than four-thousand five-hundred (4,500) square feet (does not include tracts); and
- (2) The minimum lot area shall be four thousand (4,000) square feet.

- B. The minimum lot area for single family attached units shall be three-thousand five-hundred (3,500) square feet.

303-7.2 Yard (Setback) Requirements. Yards shall be measured from the property line, sidewalk, or easement for public travel, whichever is closest to the building line.

The minimum yard requirements shall be:

- A. Fifteen (15) foot front yard to the front building wall and twelve (12) feet to a porch or other covered or enclosed entryway;
- B. Twenty (20) foot front or street side yard to garage vehicle entrance, or four (4) foot rear yard to vehicle entrance from an alley;
- C. Ten (10) foot street side yard;
- D. Five (5) foot side yard;
- E. Fifteen (15) foot rear yard;
- F. Required yards shall be horizontally unobstructed except as provided in Section 418; and
- G. Additional setbacks may be required as specified in Sections 411 and 418.

303-7.3 Height:

- A. The maximum height for structures shall be forty (40) feet, except as modified by other Sections of this Code.
- B. The maximum height for accessory structures shall be fifteen (15) feet except as modified by other Sections of this Code.
- C. Normal building appurtenances and projections such as spires, belfries, cupolas, chimneys, ventilators, elevator housings or other structures placed on or extending above roof level may exceed the forty (40) foot building height limit to a maximum height of sixty (60) feet.

- D. The height of telecommunication facilities are regulated by the Permitted Use sections of this Land Use District, Sections 201, 430-1, 430-109 and other applicable provisions of this Code.
- E. For any detached dwelling or manufactured dwelling (except manufactured dwellings in a manufactured dwelling park or a manufactured dwelling approved as a temporary use), and their accessory structures, the maximum building height shall comply with the Solar Balance Point Standard in Section 427-4.

303-7.4 Lot Dimensions:

The minimum dimensions for any new lot or parcel shall be:

- A. Lot width for detached units - thirty-five (35) feet;
- B. Lot width for attached units - thirty (30) feet;
- C. Lot depth - sixty (60) feet;
- D. Lot width at the street or access point for detached units - thirty-five (35) feet except as may be allowed through Section 430-45 (flag lots);
- E. Lot width at the street or access point for attached units - thirty (30) feet except as may be allowed through Section 430-45 (flag lots); and
- F. Lot width at the street on a cul-de-sac, eyebrow corner, hammerhead or other street terminus - twenty (20) feet.

303-8 Parking Requirements

Required off-street and on-street parking shall be provided in accordance with the provisions of Section 413.

303-9 Article IV - Development Standards

In addition to the requirements of this District, the standards of Article IV - Development Standards, including Section 422 (Significant Natural Resources), are applicable as required by Subsection 403-3.
